Re: Hazardous Waste Permit No. MOD000818963
Sale of the Boeing Company's Fabrication Operations in St. Louis, Missouri

Dear Mr. Olsen:

I have reviewed the October 16, 2000, letter from Mr. Kury to Mr. Nussbaum and the information you provided during the meeting December 5, 2000. Based on that review and a review of the applicable statute, I am of the opinion that the company purchasing the real property will not have to be added to the above-permit. My one caveat, as we discussed during the meeting, is that if the sale takes place before the hazardous waste facility is closed, the buyer would then need to be included as an owner under the permit.

As we also discussed briefly during the meeting, we may need to modify the permit to include your company as an owner. We anticipate having further discussions on that issue both internally and with you.

If you have any questions or need any additional information, please do not hesitate to contact me.

Sincerely,

JEREMIAH W. (JAY) NIXON
Attorney General
